FOREWORD

COLLABORATION DURING THE PANDEMIC CREATED GOOD PRECONDITIONS FOR SHIPPING IN THE STOCKHOLM REGION

The past two years have been unlike anything we have previously experienced. Everyone in shipping has been impacted by the pandemic in one way or another. This has both been challenging and has brought us closer together.

The way we have worked together is something I want to highlight. Thanks to good, close dialogue with you, our customers, both about long-term strategies and rapid changes of operative procedures, we have together created the best possible preconditions for sustainable transport in the Baltic Sea and the Stockholm Region.

Many thanks for such good collaboration on a daily basis, throughout the pandemic, and our mutual belief in the positive future development of shipping.

Yours sincerely

Thomas Andersson,
Ports of Stockholm
Managing Director

According to Swedish Maritime Administration regulations (SJÖFS 2013:4) the Port of Stockholm, Port of Kapellskär and Port of Nynäshamn are classed as public ports. In accordance with Swedish Law (1981:655) governing certain tariffs at public ports, Ports of Stockholm has the right to charge dues if quays, jetties or similar facilities within the port area that belong to the port owner have been called at or utilised.

Harbour dues, according to a fixed rate as set out in this price list, or according to special agreements, are payable for vessels calling at or leaving public port areas and for goods, passengers and vehicles accompanying these vessels.

GENERAL INFORMATION

For comprehensive details of terms and conditions please refer to Ports of Stockholm's Port Regulations and Ordinance information, which is available on Ports of Stockholm's website, <http://www.portsofstockholm.com>.

Invoicing of harbour dues according to this price list occurs after the vessel's application, which the vessel's master, ship owner or representative for any of these shall submit in accordance with Ports of Stockholm's Port Regulations and Ordinance instructions.

When the vessel is exempt from the obligation of submitting a vessel application, the vessel's master shall submit to Ports of Stockholm the data necessary to establish the amount of the harbour dues. Special regulations apply to vessels with permanently allocated berths. Information about the goods loaded or unloaded shall be submitted to Ports of Stockholm four (4) days at the latest after the completed loading or unloading. Ports of Stockholm is entitled to demand provision of any information necessary to satisfy the requirements of Swedish Authorities, or information necessary to establish the amount of harbour dues, or to satisfy other needs of Ports of Stockholm for information, such as to facilitate logistics planning.

Harbour dues charged according to GT (Gross Tonnage) are based on GT in accordance with Lloyd's Register (1969 measurement regulations), or alternatively the submitted Tonnage Certificate.

Harbour dues charged by the day are based on a time period beginning and ending 00:00 – 24.00, unless otherwise stated.

In the event that Swedish Authorities decree that special tariff provisions shall be levied for the vessels of specific nations or for specific types of vessels, these provisions will apply unreservedly.

Ports of Stockholm's port facilities are approved by the Swedish Transport Agency as compliant with maritime and port security legislation. This means that various types of security measures are implemented depending on the prevailing security threat level. Ports of Stockholm may agree specific contracts with shipping companies/other companies using the port facilities regarding security measures for security threat level 1, and how such measures shall be financed. For elevated security threat levels, Ports of Stockholm may implement additional security fees, based on the actual costs incurred due to the elevated security protection measures. Shipping companies operating year-round scheduled services must agree a specific contract with Ports of Stockholm regarding maritime and port security.

Ports of Stockholm is a member of the Ports of Sweden organisation and implements Ports of Sweden General Conditions 1989 for terminal operations.

This price list is issued in Swedish with an English translation. In the event of inconsistencies between the Swedish and English versions, the Swedish version shall prevail.

CRUISE LINERS

*1 Harbour dues for vessels are levied each time a vessel puts into port. The harbour dues for the vessel include the depositing of waste generated by the vessel in accordance with applicable laws and regulations. If notification has not been made within the prescribed time prior to arrival or other breaches against current regulations, the additional costs incurred can be debited.

In cases where cruise liners anchor outside of the public port area and tender passengers to a quay, pier or equivalent Ports of Stockholm facility "At anchor Nynäshamn or Kapellskär" are charged according to the GT of the cruise liner.

*2 If a cruise liner belonging to the same shipping company (operating under the same brand name) calls at any of the ports more than ten times during a season, the harbour dues will be reduced with these amounts from the eleventh call during the same season.

*3 If a cruise vessel calls at Port of Stockholm during these periods, the harbour dues will be reduced by this amount.

*4 A lay-time tariff is always payable 48 hours after the vessel has put into port with 25 % of the Harbour dues. The lay-day tariff is levied when caused by conditions that the Port of Stockholm cannot prevail over. The tariff is calculated on the net of the total debited harbour dues (Harbour dues, Frequency rebate and Seasonal rebate).

*5 Ports of Stockholm offers environmental rebates for vessels affiliated with either CSI (Clean Shipping Index) or ESI (Environmental Ship Index). For CSI rebate, the index score is calculated as the total **sum of the allocated/verified points in the Sox/PM, NOx and CO₂ categories**. Vessels that are not operating regular liner services must request the rebate when submitting the ship's notification form and for the CSI rebate send a copy of the certificate together with the ship's notification form. Ports of Stockholm also reserves the right to request additional documentation supporting the stated ESI score.

*6 Passenger fee is applicable for each arriving passenger.

*7 Cruise liners that offload separated waste in accordance with the requirements in "Waste Instructions for Ports of Stockholm" receives a discount per passenger. The waste instruction is available on Ports of Stockholm's website, <http://www.portsofstockholm.com/prices>.
